

Smart double current with repairing function 12V lead acid battery charger

Features:

- 100V-240V AC input for worldwide power support.
- Programmed four auto stages(Ud-I-Uo-Up) charging process,
- Four kinds of output mode selected ,repair mode, Motorcycle mode, Car mode, Low temperature mode. Pressing the "MODE-button"
- Intelligent repairing function, Desulfurating the battery through 20V pulse
- Stabilized double output current 0.8A and 3.3A
- It can charge any 12V SLA/VRLA/GEL/AGM battery with capacity 2-90Ah.

Safety protections:

- Over Voltage protection
- Short Circuit protection
- Polarity error protection
- Over power protection

Pressing the "MODE-button" and stepping forward one press, and indicate by LED:

- Repair Mode 20V/0.2A
- Motorcycle Mode 12V/0.8A
- Car Mode 12V/3.3A
- Low Temperature 12V/3.3A

Specification:

- Input: AC 100-240V 50-60Hz 1.0A
- Output: DC 13.8~20V
- Charging current: 0.8A/3.3A
- Weight: 350g(only body)

Warning:

- *Charge 12V lead acid battery/SLA/VRLA/GEL/AGM rechargeable battery only.*
- *Don't expose the product to rain or humidity to prevent from electric shock.*
- *It is normal if the product gets slightly hot when using.*
- *Keep the product out of children's reach.*
- *Don't remove the cover to prevent from being electric shocked*
